

Product Spotlight

STRINGED INSTRUMENTS

Mohawk provides top of the line products for all your stringed instruments. From aerosols, glue, and polish Mohawk can help restore, maintain, and even help build your stringed instruments.

INSTRUMENT SEALER **M610-120X***

* M610-1208 - 5 Gallon // M610-1207 - Gallon // M610-1206 - Quart

The Instrument Sealer is designed to complement Mohawk Classic Instrument and Piano Lacquers. This a single component sealer, no catalyst needed. It is an excellent choice for sealing instruments like guitars, pianos or any project that will be top coated with a nitrocellulose finish. While it is primarily designed as a system to go under the Piano or Classic Instrument Lacquers it may be top coated with any Mohawk nitrocellulose topcoat.

SANDING SEALER **M102-0484**

This low sheen sealer is recommended when working with flat or dead flat topcoats. Dries quickly and sands with ease. Net Wt. 13 oz.

E-Z VINYL® SEALER M102-8000

E-Z Vinyl® Sealer aerosol is the perfect choice where improved durability, moisture resistance, and adhesion are critical. E-Z Vinyl® Sealer aerosol is a water clear, quick build sealer and is specifically designed for surface preparation under mid to higher sheen finishes. E-Z Vinyl® Sealer aerosol sprays with good atomization and flow and provides a flexible, moisture resistant surface when applied under all MOHAWK aerosol clear topcoats and is ideal for use on musical instruments where improved flexibility is key.

CLASSIC INSTRUMENT LACQUER M610-140X*

* M610-1408 - 5 Gallon // M610-1407 - Gallon // M610-1406 - Quart

Formulated to produce a superior finish on thin, flexible tone woods such as those used on stringed musical instruments. Excellent flow, flexibility and durability. Superior rubbing qualities yield a mirror-like reflectance. Supplied ready to spray.

STRINGED INSTRUMENT LACQUER M113-1406

This aerosol is formulated specifically as a high-quality finish for thin, flexible tone-woods such as those used on stringed instruments, made to withstand the expansion and contraction that is characteristic of the unique construction of stringed instruments. Vinyl Sealer is also flexible by nature. This combination yields great sound and empowers luthiers to finish their handiwork with confidence.

PIANO LACQUER **M610-130X***

* M610-1308 5 Gallon // M610-1307 Gallon

Piano Lacquer is a high quality nitrocellulose lacquer specially formulated to allow higher build without sacrificing clarity for piano finishing and refinishing projects. Piano Lacquer also has excellent rubbing characteristics. Piano Lacquer is provided in a ready to spray viscosity.

GUITAR TONER **M113-120X***

*M113-1201
Encore Brown

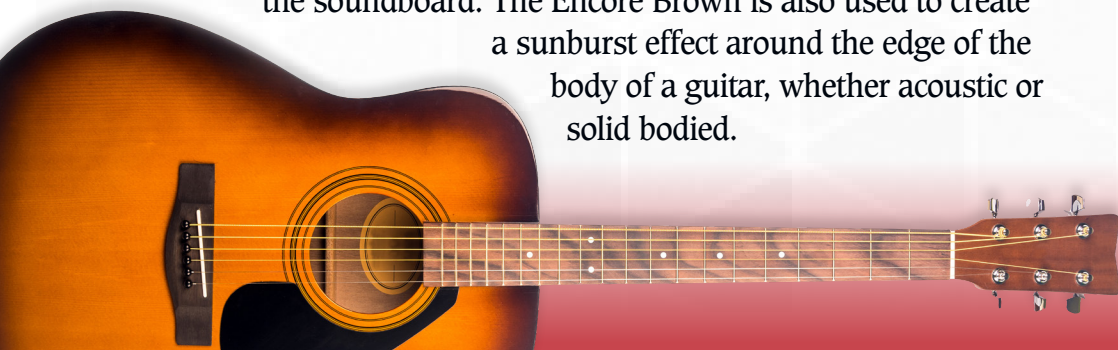

*M113-1202
Starcast Amber

*M113-1203
Deep Red

Guitar Toner Aerosols are used to add controllable, even color to the guitar. Made from fade resistant dyes, they apply transparent color so the beauty of the wood shows through, yet they are strong enough that several coats will create the dark sunburst effect that is so popular on guitars. Starcast Amber applies the basic light tone colors of the guitar. Encore Brown is used to tone the body sides of acoustic guitars, which are typically darker than the soundboard. The Encore Brown is also used to create a sunburst effect around the edge of the body of a guitar, whether acoustic or solid bodied.

TONE FINISH TONER M101-XXXX*

*Entire line of colors/finishes available on mohawk-finishing.com

Finely ground, non-fading pigments for colors that last. Available in a wide variety of wood finish shades. Used throughout the industry for quick efficient professional projects and touch-up. Adjustment of sheen is achieved with a topcoat of clear lacquer.

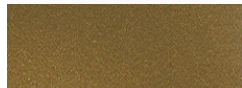

METALLIC LACQUER AEROSOL M104-XXXX*

*Entire line of colors available on mohawk-finishing.com

Mohawk Metallic Aerosols are opaque nitrocellulose aerosols that can be used on wood, metal, ceramics and other materials. They are ideal for stringed instrument projects such as guitars.

Antique Gold can be used for replication of vintage style instruments providing a dark, warm gold / metallic brass look.

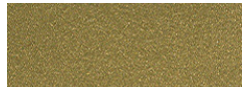

M104-0109
Antique Gold

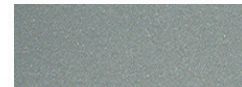

M104-0439
Bright Gold

Bright Gold is brighter than Antique Gold and a bit darker than Rich Pale Gold. It provides the most vivid shade of Gold. Used to replicate the 50's and 60's era of guitar finishes.

M104-0438
Rich Pale Gold

Rich Pale Gold provides a slightly lighter gold with a faded hue, replicating other popular brands of guitars.

M104-1542
Silver B/A

Silver B/A is a cool toned Silver that can be used to recreate both the vintage era tones as well as represent modern finishes.

GROUND HIDE GLUE **M745-4105**

Ground Hide Glue is the traditional luthier's glue; it creates stronger wood joints than bottled liquid hide glue. Ground Hide Glue is used extensively in wood veneering and the instrument making industry.

FINGERBOARD OIL **M611-0001**

Fingerboard Oil is ideal for preserving the feel and appearance of woods such as rosewood, ebony and similar woods used on fingerboards. Fingerboard Oil penetrates unfinished wood and dries hard. Does not become tacky when exposed to heat. As the original application wears, it can easily be repaired with additional applications of the oil.

SCRATCH & MAR RESISTER POLISH **M811-00XX***

* M811-0007 - Gallon // M811-0005 - 16 oz. // M811-0015 - Tinted 16oz. // M811-0003 - 4 oz.

Designed to make finished wood surfaces more resistant to scratches and other damages than untreated surfaces by adding lubrication to reduce friction. Natural and tinted formulas to match both light and dark wood finishes. Used to add “slip” to the fretboard and neck for greater playability. Can also be applied to new stringed instruments to help minimize the scratches (“strumming pattern”) that can be created from guitar pick use over time. The polish can be used as often as desired without causing any hazing to the clear coat.

- Provides scratch resistance to wood surfaces
- Reduces friction by adding surface lubrication making it easier to move along the neck
- Natural and tinted formulas to match finishes
- Contains anti-static agent to limit amount of dusting
- Does not affect the sheen, perfect for gloss or flat finishes

NO BLUSH™ PLUS RETARDER

M103-0475

Humidity or cold weather can cause wood finishes to turn white and cloudy, known as blushing. No Blush™ Plus Retarder reflows the finish and allows the trapped moisture to escape. Net Wt. 13 oz.

FIL-STIK® PUTTY STICKS M230 / M231-XXXX*

*Entire line of colors available on mohawk-finishing.com

Quickly and easily eliminate scratches, nicks or abrasions with Fil-Stik®, our semi-hard filler putty sticks. No heat or special tools required. Just simply rub the wax stick in damaged areas to fill and scrape remaining product off using a credit card to leave an even, leveled surface. Available in over 750 colors, to match any of your instruments. Can be protected with Tone Finish aerosols or other top coatings.

ULTRA® MARK MARKER M280 / M281-XXXX*

*Entire line of colors available on mohawk-finishing.com

Contains light-fast pigments which seal, stain and finish in one easy operation. Ideal for edge and scratch recoloring.

Compatible with all types of finishes. Can be sprayed over with Tone Finish Clears as well as other lacquers, acrylics, varnishes and urethanes. There are four different style replacement nibs available, chisel point, writing point, bullet point and metallic chisel point to assist with any repair.

ABOUT MOHAWK

THE ORIGINAL TOUCH UP COMPANY™
